[From the Chicago Daily Free Press and Tribune, Feb. 12th, 1859.]

The Proats Marine and Fire Investment Company.—It is with pride and pleasure that we ask the attention of our readers to the statement of this company in our columns this morning. It is the lirst detailed exhibit of the condition of any home company that we have ever need, and compares most favorably with the statements of the best Eastern companies. Such an array of assets, amounting in all to \$32,256 24, shows most conclusively that we have a company in our own State, as sound and as well managed as any other, no matter where located. As it regards its promptness and tiberality in the settlement of its losses, no company has a better reputation. The Peorla Company is doing business in most of the Western and Southern State, including Wisconsin, Michigan, Indiana, Missouri and Kentucky, where it is obliged to tile an annualistatement of its condition and to comply with the same laws that are required of all Eastern companies. The fact that the company can comply with the laws of those States, which are regarded as very onerous by many companies, shows that it has the necessary capital, and as available assets as any other company, being subjected to the same provisions.

Editors Louisville Courier: Last Monday it was generally reported that Gov. Magodin would address the citizens of Mercer, at the court house, in the afternoon of that day; and after the ailjournment of the Democratic county meeting to select delegates to the District Convention, loud calls were made for our gallant (lubernatorial standard bearer, who, being sought and found a standard bearer, who, being sought and found a short distance from the court house, was brought to the stand and a speech demanded from him.—

But as Mr. B. had not yet signified his acceptance, he (Mr. M.) could not open the canvass by an allusion to the actions of said convention; but as it seemed necessary for him to fulfill his promise, he would merely spread his programme before the people for their approval or condemnation.

lle cordially indorsed the resolutions passes the Democratic State Convention, and elo-mently showed how the heresies of Abolitionism have gradually crept upon the American people, until they are now terrific and dangerous to the safety of our Constitution and Union. He read extracts from the speeches of Mr. Seward and extracts from the speeches of Mr. Seward and others, in corroboration of his statements in regard to the designs of the Black Republicans, and showed the necessity of immediate, united, and active efforts on the part of all Constitution and Union-loving people, that they may hurl back the dark designs of this treacherous and sectional party, whose leaders have gradually but surely gained such a hold upon a large number of the unsuspecting and confiding citizens of the North, by misrepresenting the institutions of the South, that it requires unity of action and purpose, hy those whose love of country is greater than their

Reading Matter on Every Page.

The Opposition Platform-No. III. It would seem, from some things in it, that the

author of the Know Nothing American Opposition platform has been reading the classics. He cails the Democracy a double faced party, there by indicating that he has been thinking about Janus, the two-faced god of the Romans. This bifrond deity had a temple with two gates, which were open in time of war and closed in time of peace. The Romans, Lowever, were such a fighting set of fellows, that the gates were closed only twice before the reign of Augustus, and only six times afterwards. But even this analogy won't hold good when applied to the Democracy, for they never have shut and never will close their war portals while there is a remnant of Know Nothingism, Americanism. Oppositionism, or any other fanati

But white the author of this platform was read ing the classics, it is a pity be did not come across that other Janus worshiped by the Ro mans. We mean the Janus quadrifron or fourfaced Janus. He had one face looking to the North, one to the Sould, one to the East, and one to the West, with ever wareliful and equal care .-He had a temple, also, in the Valabrum with four fronts, one for each point of the compass This Janus had some resemblance to the genius of Democracy, which regards each portion of our glorions country alil... The Northern, the South orn, the Eastern, and the Western divisions of cur common country are alike dear to the Democracy, the only national party, the only political organization with faces enough and eyes enough to take in the whole I nion at a glance.

It is amusing however, to bear how these self styled Oppositionists, these Know Nothings in new livers these elite of the State, talk about the Democratic party being double faced. One would think they were all clarg nabobs, were it not too evident that they are knavish demagognes. The tollowing is the third plank in the frail scaffold

Many of its Northern leaders earnestly advocate strongly protective tariff, whilst many of its outhern leaders say that the adoption of another rotective tariff will justily and cause a dissolu-

The Northern leaders advocate squarter sover engaty whilst its Southern leaders hold it in ab-Its Northern Representatives, under Southern dictation, vote for a law saying Kausas shall not be admitted into the Union without a population

of ninety theree thousand, and then, to secure their re-election, pledge themselves to vote for her admession regardless of the amount of population.
Many of its Northern leaders favor internal improvement, and vote for the unst costly improvements ever devised, while Sauthern leaders deny the power to make improvements, and the policy

Now, only think of these fellows talking about Northern Democrats advocating a protective tariff and Southern Democrate opposing it' Are they not standing in glass houses and throwing stones' They know well enough that their Northern allies want as high a protective tariff as they an get to give them a monopoly of underground opposed to giving them this protection. They krow that the freedom shricking Yankee wants a tariff to protect every thing he uranufactures, even to brass clocks and wooden nutmegs, while the slave-holding Know Nothing opposes everything told mehe now weighed 200 poends, and that this wonof the kind. If things continue to progress as they have of late, the Northern wing of Know Nothingism will demand a tariff to protect them in the exclusive munufacture of Free-Nigger speeches, Free-Nigger newspapers, Free-Nigger books, and other species of Free-Niggerism with which it has long been, is now, and ever must be their aim to curse the land, and disturb the harmony of the Union

It is possible that some of the Southern Know Nothings would not grant this exclusive privilege to their Northern allies, for they like Free-Niggerism too well not to engage in its manufacture themselves. But if they would not stand the protective tariff on this article, they would certainly go for it on such articles as they could use in the manufacture of brass knucks, slung shot, billies, and articles of this kind to be used upon election

Equally ridiculous is what they say about Democratic squatter sovereignty at the North and the South. They are pretty fellows to be talking thus. They would be themselves squatter sovereigns at the North and sovereign squatters at the South if they could. But sovereignty in a squat, norin any other shape, pertains to them. They can talk about it, and grieve at not having it, but that's all. The Democracy are the sovereigns of all sections of the Union, and they can squat or not, as they like. If they choose to be squatter severeigns at the North and sovereign squatters at the South, they will be so; and if they choose to be anything else, they have but to will, and 'tis done.

As to what is said about Kansas, it amounts to nothing. If Northern Democrats did vote for a law prohibiting Kansas from becoming a State before she had 98,000 inhabitants, and then to seoure their re-election promised to vote for her admission, regardless of population, they only pledged themselves not to regard a greater population than 93,000 as a barrier; for before the new State can be admitted, she will contain many more than 93,000 inhabitants. We shall see, however, what pledges the Southern Know Nothings, who voted against the admission of Kansas with a proslavery constitution, will make to secure their re-election. Humphrey Marshall is in that category. He voted with the Abolitionists against the admission of the new slave State, and thereby assisted in losing a Southern sister of the confederacy. Kansas will not apply for admission again as a slave State, for Emigrant Aid Societies and the Pike's Peak gold mines have long since settled that question. She will knock at the door of the Union the next time with a Free-Nigger tap that will be music in the ears of Humphrey and

many others of the Opposit.on elite. But it is needless to say more of this weak plank in the frail scaffold. The thing has not strength enough, and, indeed, we fear the whole scaffold has not atrength enough, to hold the light animals who are npon it long enough for the executioner to do his work. If it be true, as charged, that Northern Democrats are in favor of internal improvements, while those of the South are opposed to such schemes, we venture to say that the Democracy of both sections would unite, without a dissenting voice, in any kind of internal improvements that would SINGER'S SEWING MACHINES, any kind of internal improvements that would account platform for the Opposition to stand on. The concern before us won't do at all. It won't beld up long enough for us to dispatch those who stand on it in a proper way. They will all tumble down sure, and then what trouble there will be! Only think of the dite, with their patent

leather boots, and fancy kid gloves, and broadcloth coats, and satin vests, and nice pantaloons, and handsomely tied cravats, and sleek hats, and heavy watch chains, and elegant canes, and oiled moustaches, and perfumed handkerchiefs, etc., etc., all tumbled together amid the fragments of their fallen and dismembered platform! The catastrophe is too horrible to dwell upon. The Democracy would not think of disagreeing upon internal, or external, or any other kind of improvements that would secure these nice fellows a snostantial platform. They would erect them one high and strong, and then advise them to use the ladders. with cushioned and damasked rounds, with which they are to come down to a level with the people, in ascending a platform that would not so'l their ruftled shirts by a fall at the wrong time

STATEMENT OF CONDITION, Cash Capital and Surplus, \$206,295 69.

The Cheapest, most Brilliant, and most Convenient Artificial Light in the World.

This very Gas Light has won for itself a reputation for elegance, economy, safety and simplicity, far beyond any other artificial light. The Vesper Gas lame and fixtures precisely resemble in form those of coal gas; but in brilliancy and purity of light, it possesses a decided advantage over even Louisville coal gas. It requires no chimney; there is no need of daily trimming of wick; and the construction of the fixtures is so simple that it is not liable to get out of order, and a child can manage it readily. The gas burnt in the Vesper fixtures is generated from pure coal oil, without any admixture of alcohol or other foreign ingredient. It is entirely free from odor while burning, a, by a simple contrivance, the vapor of the oil is mixed with the atmosphere, producing perfect combustion and a most intense light. The light has been pronounced, by those who have had it in constant use for months, as most pleasant to the eye while reading or sewing, the rebeing no tilekering or unsteadiness in the fiame. The Vesper Gas light is portable, and can be used in town or country—in fact, wherever artificial light is required. The fixtures themselves are adapted in styles to suit all tastes, from the plain single light burner to the most coetly chandeller. Each chandeller is perfect in itself; there is no outlay to be made for service pipes. The gas is generated in the burner, and all fixtures, from the cheap single light burner to the expensive chandler, are miniature gas work; in themselves. They are sold at prices which do not exceed the cost of ordinary gas fixtures of similar styles and ornamentation. A price list will be sent to any address on application.

BY TELEGRAPH.

From New York.

Naw York, March 12.—The Times' Washington dispatch says a highly interesting letter from Commodore Charles Stewart was to day handed to President Buchanan, disclosing an item of secret history never before divulged. President Jefferson's gun-boat navy, which was the subject of much ridicule, was ostensihly built for the protection of our sea coast. One hundred and eighty of these boats were sent southward.

THE MEXICAN MUSTANG LINIMENT.

THE popularity of the MEXICAN MUSTANG LINI-MENT is coextensive with the civilization of the globe. Other urticles claim to alleviate pain and distress—this cures. Family Investigans, Governmen Hospitais, Farriers, Planters, Parmers, Livery-men etc., have practically demonstrated this fact, through nt the world. No article ever before received such ndivided praise and support from Medical and Scien-RHEUMATISM

of years' standing, has been totally cured. Plies, Ul-ers, Tumore, Running Sores, Scrofula, Stiff Joints, 'elons, Swellings, Burus, Bites, Boils, Chaps, Neuraigla, ait Rheum, and all aches and pains upon man, and HORSES, CATTLE, ETC.,

such as Ring Rone, Gall, Scratches, Spavin, Poll-Evil, Sweerey, lloof-all, etc., are subdued and cured by the MUSTANG LINIMENT. VALUABLE HORSE SAVED.

COUGHS, COLDS, ASTUMA, BRONCHITIS, INFLUENZA, PAINS IN THE SIDE AND BREAST, SPITTING OF BLOOD, AND CONSUMPTION,

Is rapidly advancing in the estimation of the public. It is no empirical nostrum; its component principles are made known to the entire medical faculty. It is prepared accurately from the recipe of an experienced and talented physi-cian, and has proved itself to be the greatest remody for all diseases of the Lungs ever discovered; and wherever thas been introduced it has made cures which are perfectly astonishing. It is hound to supersede every other Cough Medicine before the public. Testimonials are daily being sent in to the proprietor, of cures effected even after physicians had abandoned every hope. A single trial will convince the most increasily as of its effects in the convenience of t single trial will convince the most incredulous of its efficacy in curing that class of diseases for which it is designed. Why is it that so many die every year of Consumption, or some other disease of the Langs? Because they neglect its snro forerunner—a "simple cold,"—which might be easily cured by the prompt use of a single bottle of Dr. John Bull's "Companial Pectoral of Wild Cherry." DR. STRAUS,

SURGEON DENTIST. WOULD inform the citizens of Louisville and its vicinity, that he has located himself here permanently, for the purpose of practicing his profession in all its various branches, after the fatest and most approved style. Having practiced for the last twenty years in New Orleans, I feel confident of giving satisfaction to every one who may honor me with a call. I would call the particular attention of the public to my mode of filing teeth, which is done in such a manner as to get twice the amount of gold into a cavity, as done in the usual way. I can, therefore, "guarantee" every tooth piugged in such manner to be as good as if never decayed.

Artificial teeth inserted—from one to an entireset—not only for beauty, but also for use, with or without suction, such as the case may require. Teeth extracted with as little pain as possible, and all other operations pertaining to dentistry.
